

**DISPOSAL AND RECOVERY OF WASTE OIL, OILY WATER, ANTIFREEZE,
PETROLEUM CONTACT WATER AND USED OIL FILTERS**

**Quotation Number 09-Q04/PF
ADDENDUM 1**

July 7, 2009

RETURN DATE: now reads: **July 8, 2009**

Change to read: July 13, 2009, prior to 5:00 PM EDT

ADD: **EQUITABLE ADJUSTMENT**

The Authority may, in its sole discretion, make an equitable adjustment in the Contract terms and/or pricing if pricing or availability of supply is affected by extreme and unforeseen volatility in the marketplace, that is, by circumstances that satisfy all the following criteria: (1) the volatility is due to causes wholly beyond the successful bidder's control, (2) the volatility affects the marketplace or industry, not just the particular successful bidder's source of supply, (3) the effect on pricing or availability of supply is substantial, and (4) the volatility so affects the successful bidder that continued performance of the Contract would result in a substantial loss. Any adjustment would require irrefutable evidence and written approval by the Director of Purchasing Services.

Page 4 **SCOPE OF SERVICES - now reads:**

This Scope of Services includes transportation and disposal of the materials generated by the operations described below.

- 1) The Authority operates six (6) Public Used Oil Collection Centers. Used oil, oily waste, oil filters and antifreeze are collected from household sources as a public service and stored onsite.
- 2) The Authority also generates used oil, oily water, filters, antifreeze and petroleum contact water at its Vehicle Maintenance Facility.
- 3) The Authority may occasionally generate the same types of materials at other facilities or work sites as operations dictate.

Materials are normally collected and stored in tanks but may on occasion be stored in drums. Tank sizes and estimated volumes are indicated for each operation (See schedule attached). The volumes indicated are estimates only and no guarantee is given or implied. The Authority reserves the right to increase or decrease quantities based on actual need.
