

Hi

boys and girls. I'm Rappin' Plastic and I'm here to tell you about recycling and the environment. Just play the games and complete the activities below and you'll learn a lot. Come on, let's begin...

DID YOU KNOW?

Recycling is great for the environment. Recycling not only saves landfill space, but also saves energy and natural resources. Plastic bottles can be recycled into a number of new things... Including clothes and sleeping bags!

WORD UNSCRAMBLE

By following the clues, can you guess what the scrambled words are supposed to be?

Soda pop sometimes comes in this size recyclable container. TREIL _____

Plastic jugs often contain this healthy drink. LMKI _____

By recycling plastic, we can conserve this. GRNYEE _____

This durable material is built to last and if thrown away, will sit in our landfills for a long time. LCPSAIT _____

CIRCLE THE PRODUCTS MADE FROM RECYCLED PLASTIC
